

ExhibitOne Corporation

Project Profile

Project: Hop Social Tavern

Location: Chandler, AZ
(Crossroads Restaurant Group)

Completed: November 2017

Project Description:

The owners of Crossroads Restaurant Group, having spent 24 years in the restaurant business and having 3 successful restaurants in Oregon, decided to open Hop Social Tavern at Chandler Fashion Center in Arizona. With over 50 local craft beers on tap and made from scratch recipes using Arizona's finest ingredients, their design intent was to exude a feeling of comfort using reclaimed, hand-made and vintage pieces from across the globe.

ExhibitOne integrated 12 LG 65" displays as part of the display system, 16 indoor hanging pendant speakers and 5 outdoor speakers as part of the audio system, and 2 – 10 inch Crestron touchscreens as part of the control system.

The challenge was the AV integration falling at the end of the construction schedule and enduring delays from other trades when they had issues. For 20 years, ExhibitOne has been working with general contractors and other trades, and we understand the solution is to communicate early and often. Making them aware of the audiovisual, and in this instance, CCTV and security systems and having the trades help in properly preparing the infrastructure, mitigates risk to the project schedule. At a place that has "Social" in its name, the audiovisual systems play an integral part, and ExhibitOne was proud to be a part of the owner's vision.
